RE: L-18-0155 Inquiry

Hi all,

[REDACTED] did submit a DRM to RAD in early June. [REDACTED] replied on 6/12 that the info from the submitter wasn't sufficient to update the IRER, he explained what would be needed from the submitter, and offered to provide info on testing.

I just talked to the technical contact who indicated that she was unaware of RAD's response to their supporting info. I shared the response with her and will also ask [REDACTED] for the info on testing that he'd offered to provide. So, it's not Hair on Fire yet.

Cheers,

I don't know if [REDACTED] is still sick. I will send an email to Ms. Collins stating that I am checking on the status of the case but someone (you or [REDACTED]) will need to contact Ms. Collins. It appears that [REDACTED] may have sent a DRM to RAD on June 9 but I am not certain. This may need to become a Hair on Fire case that will make RAD work on it despite the decision to delay "normal" LVE cases.

[REDACTED] what is going on with this case? The Day 90 in NCR, 6/19/20, has passed by.

Hi [REDACTED]

Huntsman supplied supplemental information regarding L-18-0155 on May 22, 2020. We have not had any communication regarding this case since early May. It is my understanding that the case is still being reviewed. May we kindly ask to be provided with an update? Is there anyone else who we can reach out to in the future regarding this case?

Thank you,

Courtney,

On Jan. 23, I requested that our Risk Assessment Division (RAD) start work again on this case again. I repeated that request again yesterday and was able today to get the assigned engineer to restart the assessment. [REDACTED] and I will monitor the work by RAD.

Hello,

Huntsman case L-18-0155 has been with the agency since early 2019. Our case manager, [REDACTED] **Ex. 6 Personal Privacy (PP)**, has informed us that the case hasn't moved in quite some time. We have provided solutions to mitigate some concerns that were made aware to us several times. We would like to know if there is any way to prioritize this case and move it along, or at least get some feedback on the information we have provided if it is sufficient or if we can provide any new data. We appreciate any help.

Thank you,
